

Orange & Natural Wines

What is an Orange Wine??

Orange wine is a type of white wine made like red wine. By leaving the grape skins and seeds in contact with the juice, this creates an orange-hued finished product. The method continues by entering vats of terracotta. This is not a modern technique, the ancient Romans and before them the Caucasians for over 7000 years used to carry and preserve the wine in this way, it leaves a “zero ecological footprint” and is ideal for slow and consistent micro-oxygenation of the wine.
